## Our WORD

In Power Tuning, we use our experience in both lighting and in serving our clients to reach superiority and perfection.

Power Tuning does not focus only on energy efficiency in its solutions and products; but on its service effectiveness too.

Our services include designs, calculations, site testing, supplying, commissioning and client satisfactory and training.

From dozens of successful lighting projects done through the last decade, either targeting standards fulfillment for comfort and energy saving, or to complete the architectural scene desired; we are glad and ready to support your project with our experience and products.

Eng. Ramy El-Zabet  
Managing Director

## Our LIGHT

As a company that values the true meaning of life, we are persuaded that human has the right to live in a world that has a hope for a better tomorrow. Our vision is to maintain our World's heart youth, to be able to keep doing his regular globally sports but without excessively exhausting his power resources. Therefore our job is to keep his breathing rhythm in harmony with his embedded energy resources. We do this through efficient designs, controllable systems and clean energy generation.

## Our WAY

### Integrity & Honesty:

We care not only for the end result, but how it is obtained. We demand ethical conduct in all of our activities.

### Teamworking:

Maintain a workplace that offers open opportunities to all. We also believe that listening is usually smarter than talking.

### Respect:

Disrespectful language of a person's race, religion, color, sex or any other protected class doesn't fit in our workplace that values diversity.

### Responsibility:

We don't have the habit of making excuses. We try to work to the utmost of our ability in each job in our hands.

### Commitment:

Customer, provider and supplier relations are the cornerstones of our business.
