

Art. Nr. 86458624

LED Panel VarioLED-White

Dimmable, glare-free and ultra-slim LED ceiling light with variable color temperature for a pleasant room climate.

In addition, high energy efficiency and long life are good reasons for choosing this innovative lamp.

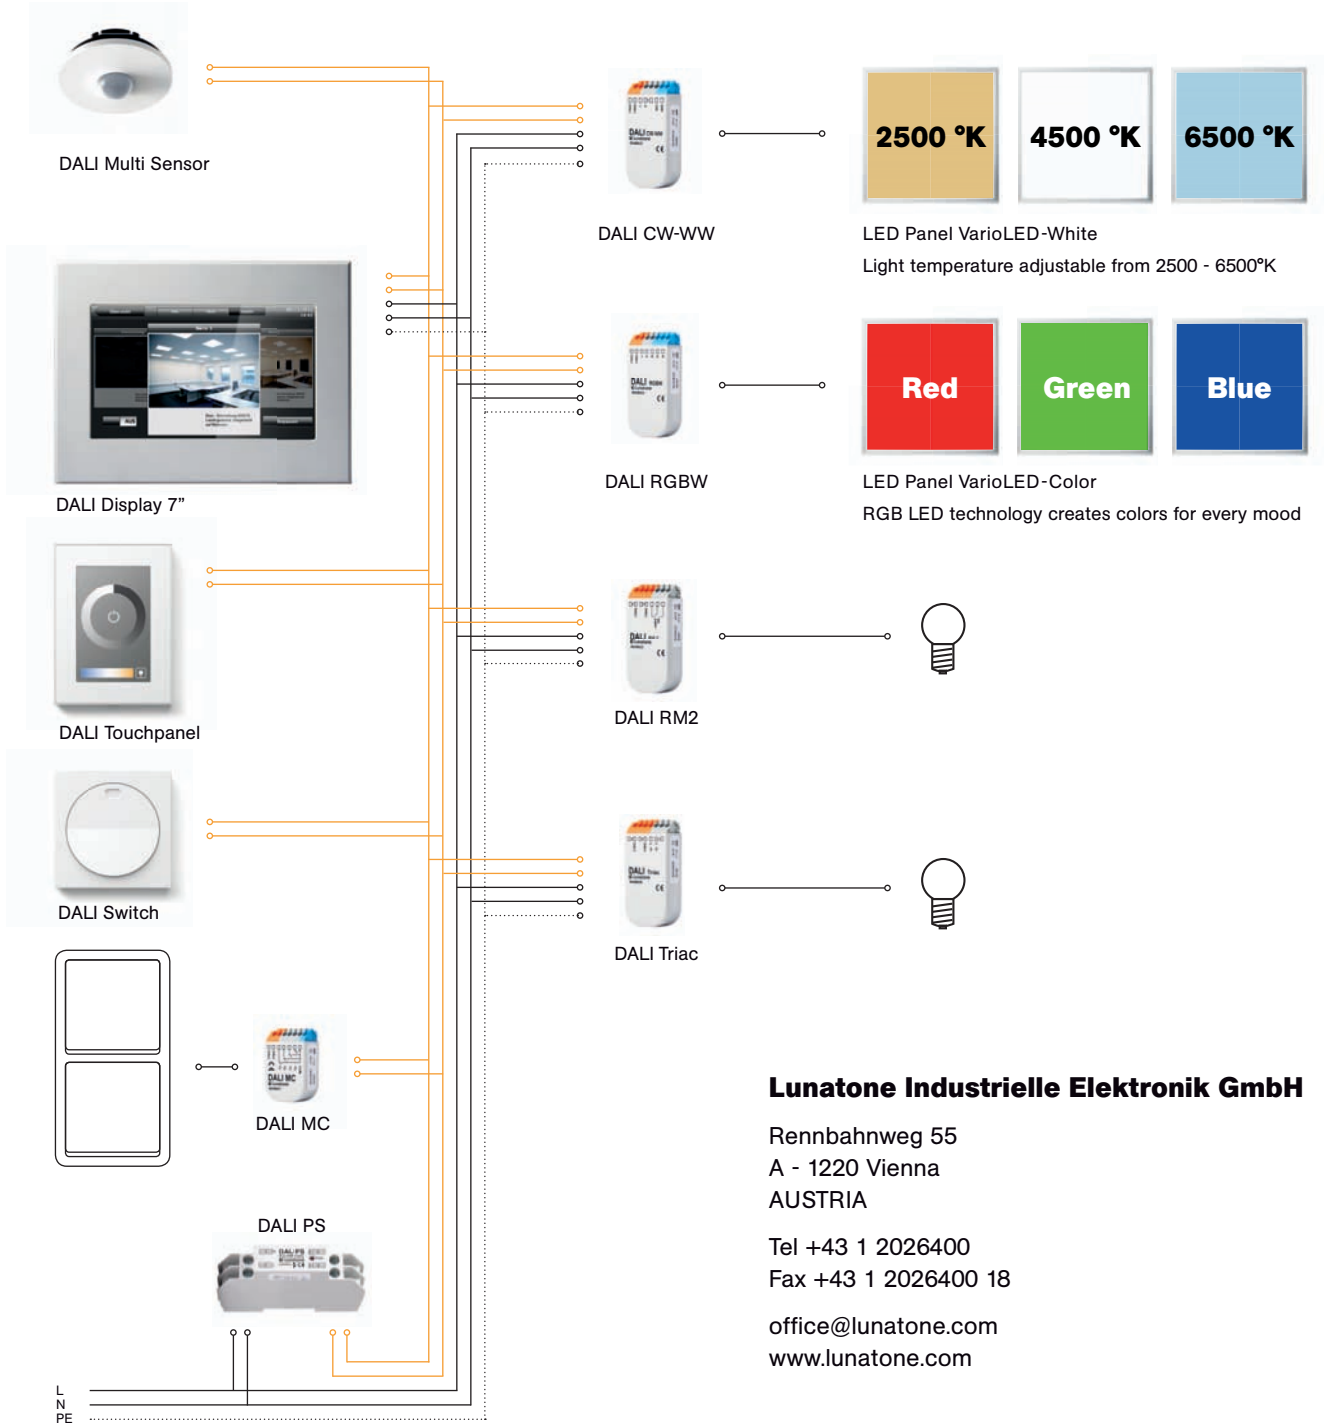

The 15-mm flat VarioLED panels can be used as wall, pendant or ceiling lights (grid ceilings).

[Link to product video](#)

Daytime related control of light temperature and intensity is possible.
